

WIND ENERGY HAMBURG 2022 (27-30 SEPTEMBER 2022)

WindEnergy Hamburg reflects the dynamism of the wind industry in all its facets and across the entire value chain. Whether designers, manufacturers, suppliers, financiers, operators or service providers - both onshore and offshore - this is where industry leaders, young innovative companies and industry-related variables into an international marketplace of the wind industry meet. With high innovation potential and a real pioneering spirit!

Dutch Village (the national pavilion of the Netherlands) in Hall B7 has a total floorspace of over 500m² and is located at an excellent location, next the main entrance from Hall B6 and close to the stands of an impressive number of key players from the industry. Do you want to present your company at this prominent exhibition and make use of the many benefits of participating in Dutch Village? Book your stand now or drop us a line for additional information.

For bookings or enquiries, contact Nederlandse WindEnergie Associatie (NWEA)
